# Provision of the Soil Conservation Program

## Relative to Sowing of Adapted or Unadapted Seed Clarified

There has been considerable confusion regarding the payments in connection with the Agricultural Conservation Program, and in order to make clear the provisions of the 1937 Agricultural Conservation Program with reference to the use of adapted or unadapted seed, a statement was issued under date of February 5 by Claude R. Wickard, Director of the North-Central Division.

We would urge all dealers to recommend to farmers that they consult the local authorities in charge of the Agricultural Conservation Program for authoritative information with reference to benefit payments in connection with the sowing of adapted or unadapted seed.

DICKINSON'S  
PINE TREE

## In Mixed Car Shipments Save You Money on Your Freight Charges

Globe Feeds and Pine Tree Seeds can all be utilized in making up the minimum weight of a mixed carload shipment to certain shipping points. The respective carload freight rates apply on each commodity in the car. Write to us for full particulars concerning your shipping point.

Many merchants buy some seed from one point, feed from another point and pay local freight charges on each shipment. Combining orders and concentrating on Globe Feeds and Pine Tree Seeds has meant a big saving to many merchants. Possibly the same plan would be beneficial to you.

*The Albert Dickinson Co.*
